

Product No. RN161

BioDisrupt[®]

Comprehensive Microbial Support

Supplement Facts

Serving Size: 2 Capsules
Servings Per Container: 60

Amount Per Serving	%Daily Value**	
Total Carbohydrate	1 g	<1%
EnzymeDisrupt™ Blend	79 mg	†
Lysozyme (from egg white), Serratiopeptidase, Beta-glucanase, Lipase Protease 4.5, Cellulase, Hemicellulase		
HerbDisrupt™ Blend	605 mg	†
Cranberry (fruit) extract, Berberine, Rosemary (leaf) extract, Peppermint oil powder		
N-acetyl cysteine	300 mg	†

** Percent Daily Values are based on a 2,000 calorie diet.
 † Daily Value not established.

Other Ingredients: Microcrystalline cellulose, vegetable capsule (hypromellose, water).

Contains: Ingredients derived from eggs. Enzymes found in this product use wheat and soy during fermentation.

Manufactured without milk, fish, crustacean shellfish, tree nuts, and peanuts. Produced in a facility that may process other ingredients containing these allergens.

Features & Benefits*

BioDisrupt[®] supports the healthy immune system's ability to target the sophisticated self-defense mechanisms of biofilms, the unwanted extracellular organisms that help bacteria evade immune system detection. As part of this system, these organisms assemble into clusters, surround themselves with a protective physical matrix, and communicate (quorum-sensing) among themselves. Unable to pierce biofilms, many pharmaceutical and nutraceutical immune products do not detect the bacteria, leading to even more of these extracellular organisms.

Mechanisms of Action

- Disrupt biofilm matrices
- Interrupt quorum-sensing (biofilm intra/intercommunication)
- Support the body's anti-adhesion properties

Suggested Use

As a dietary supplement, take 2 capsules twice per day between meals, at least two hours after eating or one hour before eating or as directed by your health care professional.

Cautions

Do not use if pregnant or nursing.

Each Serving Includes:

Features	Constituents/ Actions	Benefits*
EnzymeDisrupt™ Blend	Lysozyme, Serratiopeptidase, Beta-glucanase, Lipase, Protease 4.5, Cellulase, Hemicellulase	<ul style="list-style-type: none"> • Enzymes promoting the body's normal ability to disrupt extracellular matrices
HerbDisrupt™ Blend	Cranberry (fruit) extract, Berberine, Rosemary (aerial) extract, Peppermint oil powder	<ul style="list-style-type: none"> • Clinically researched herbs to support the body's normal anti-adhesion properties and promote digestive comfort • Microbial support nutrients to promote the body's healthy response to invading organisms • Nutrients to promote healthy level of extracellular mucus • Herbs to promote healthy microbe colony communication
